garbed in the costume so popular in the west.

The bride did not appear to be more than 17 years of age, and the groom seemed hardly a day older.

The bride is one of the best riders in the wild west show and the groom is an excellent lariat thrower. The mem-

bers of the circus have known that the couple have been sweet on each other for some time, but it took Mrs. Zack Miller, wife of one of the proprietors, to carry out the matrimonial programme and have the knot tied.

After the ceremony the party posed for a picture. The bride's father has a big ranch next to the Miller ranch

Race Perjudice.

That race prejudice is folly and blgotry is again proven by two unusually
brutal and barbaric murders. A charming American girl is put to death in a

Project to Erect Monument to Mr. and Mrs. Stephen Wilcox-Annual Meeting of Watch Hill Fire District-Committee Appointed to Bring About Widening and Beautifying of Bay Street-Trespass Case Settled.

During the past week a delegation interested in showing public appreciation of the Wilcox foundificence has called upon Postmaster Walter Price and requested him to make a start and he would have many followers. It is estimated that a suitable statue memorial in granite could be had for from \$10,000 to \$12,000 and it is believed that the sum required could be raised within a year, with no subscription too small to aid in the appreciative work. Mr. Price has expressed his willingness to take active part in the proponents. ness to take active part in the prope

The annual meeting of the Watch Hill fire district was held Monday morning at Watch Hill. On account of the large number of persons present the meeting was adjourned to the ball-room of the Plimpton house from the office of Horace E. Burdick. There was a large number of cottagers, men and women, present, as well as the legal voters.

The meeting was called to order by Moderator Frank Larkin, and Clerk George N. Burdick read the records of the previous meeting. On motion of John W. Sweeney the privilege of the floor was extended to all taxpayers present. The regular business of the regular consisted in the reading of the reeting consisted in the reading of the

meeting consisted in the reading of the treasurer's report made by Horace E. Burdick, the report of Superintendent McKenzie of the water works, and both of these reports were received and placed on file.

The treasurer's report showed that there was cash on hand \$328.98 and two outstanding notes against the district, amounting to \$2,000.

The report of the superintendent of the water works showed that the water rentals paid to the town of Westerly during the past year for water services and hydrants amounted to \$5.542.66.

An appropriation of \$50 was made for the benefit of the Watch Hill Fire company. The treasurer of the disconnection of the superintendent of the water works showed that the water rentals paid to the town of Westerly during the past year for water services and hydrants amounted to \$5.542.66.

These were discovered on the floor in the bank near the vault. They were claimed today by Orin T. Harris, a local blacksmith, as his property. BREWING CO. Providence, R. I.

There is increasing desire on the part of the people to show practical appreciation of the munificence of the late Stephen Wilcox and Mrs. Wilcox in endowing for the residents of Westerly and vicinity the magnificent Wilcox park and the Westerly Public Library and Memorial brilding. It is set forth by the parties who are taking a lead in the matter that a fitting memorial to Mr. Wilcox would also serve as a memorial to Mrs. Wilcox, who after her husband's death did what he desired and what he made possible for her to do.

Nearly midway between the Westerly High school building and the public library building is an oval space that seems to have been selected as a suitable site for the proposed memorial. It is a sightly location, facing Broad street and within the park enclosure. It is here where the people of the town would like to erect a statue of native granite of the man who gave the park for public comfort and convenience. It is proposed to raise a fund for this memorial by popular subscriptions in which everybody can participate, thus making it an offering of all the people and giving all opportunity to show appreciation of what Mr. and Mrs. Wilcox have done for the people.

During the past week a delegation interested in showing public appreciation of the Wilcox munificence has called upon Postmaster Walter Price Sees Mother Grow Young.

"It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Ms. "Although past 70, she seems really to be growing young again. She suffered untold misery from dyspepsia for 20 years. At last she could neither eat, drink nor eleep. At the Immaculate Conception church Monday morning at 8 o'clock, Joseph Masson and Miss Bertha Sevigny were married by the Rev. J. W. Hoey. The witnesses were the fathers of the bride and groom, Joseph Masson and Alexie Sevigny. The Rev. Father Hoey also celebrated the nupital mass. The bride wore a pretty gown of white net and a veil caught with knots of white ribbon. A reception was held at the home of the parents of the bride on Main street until 3 in the afternoon, when Mr. and Mrs. Masson left for a short trip to New Bedford. The bride traveled in a cream ladles' cloth suit, with hat to match. She received a number of useful and beautiful presents. BANK ROBBERY ATTEMPTED. First Hopkinton National Bank at Ashaway Visited by Cracksmen.

Two charges of ni-Three years ago an unsuccessful attempt was made to rob the bank and at that time tools were also taken for use from the same shop and the would-be burglars escaped detection. Were it not that such a terrible explosive as nitro-glycerine was used, the robbery would be considered the work of amafeurs, but from the character of the explosive and the way in which it was evidently handled and used there can be little doubt but that the work was that of professionals. The outer wall of the bank vault is of stone and two feet through. In this wall is the first door to the vault, made of steel. It was into the keyholes of this door that the charges of the explosive were put. The door was badly wrenched, but not opened. The lower end was bent outward about an inch, but not wide enough to admit of a jimmy, with which it might have been forced open. There is nearly the space of a foot between this outer door and the inner door to the vault. It is thought that by the reflection of their lantern through the space at the bottom of the outer door the obstacle in the form of the second heavy steel door was discovered and the work was given up.

The bank remained closed for busi-
